Training plan questionnaire

Dear Client

*Please take a moment and complete the training plan for my records. This form only needs to be completed if you want training for your dog. Please remember that dogs take time to learn new things. **You did not learn to drive and get your license after just one lesson.** 😊*

More information about our training philosophy, methods, and experience:

We believe that the dog and the owner must enjoy the training. The dog's needs and wellbeing are therefore our priority. We use reward-based training methods using food and/or toys to reward the dog for a job well done. We do not use leash corrections. The one-on-one training session will not be longer than 20 minutes and can even be shorter depending on the dog. Each dog is an individual and will not be pushed beyond their limits. I have over 30 years' experience in training my own dogs and 4 of my dogs have obedience qualifications. I have trained people and their dogs for around 20 years, am an Accredited Hill's puppy school Trainer and am currently in my final year of my Animal Behaviour Diploma with COAPE International.

What do you want your dog to learn in the training sessions? Please note for each dog.

Om minder bang te wees en sy vertrou op bou sodat hy kan speel en hond wees. Kom as ons hom roep. Om ons te vertrou. Luister as ons opdragte gee soos om uit die huis te gaan, of uit die kombuis te kom ens.

How long do you think it will take to achieve your training goals with your dog?

Geen idee _____
